Lupa CrossCheck — Sample Anonymized Lead Pack

Lupa Intelligence · Sample deliverable · All identifying details redacted · Updated 2026-05

This is an anonymized sample. Real Lupa CrossCheck deliverables include the actual folio numbers, owner names, addresses, and clickable public-records URLs on both sides of every match. Names + addresses + parcel IDs are redacted here for confidentiality. All structural elements (evidence classes, statutes, defensibility methodology, link verification) are unchanged.

MLS-GRADE SALE GUARDRAIL

Methodology summary: Each lead represents a parcel with active homestead exemption AND ironclad public-records evidence of homestead violation. Cross-state leads carry confirmed dual-claims against owner-occupied parcels in another state (FL §196.155, ARS 42-12053). FL multi-county leads carry same-owner ownership across multiple FL counties (FL §196.031 — single primary residence rule). All cases pass our 24-month MLS-grade sale-date guardrail (verified via Redfin/MLS data) — the most common false-positive class in homestead audit work (recent ownership transfers where the new owner inherited the prior owner's exemption flag) is filtered out automatically.
